

Experts in Wheel Applications

WHEEL END UNITS FOR COMMERCIAL VEHICLES

OEM Quality in the Replacement

We adapt to the requirements of different sectors

Truck

The brand of choice by truck experts.

We are original wheel hub suppliers for the top worldwide truck brand because we apply the highest quality standards to our products.

Trailer

Our extensive range for platforms.

We have a very extensive range of bearings from tapered roller bearings to preset bearings for the main trailer brands in the market.

Bus

Adapted and integrated solutions for each market.

We adapt to the needs of each market. That is why large urban bus fleets use Fersa bearings for maintenance.

Solutions for All Brands

Leaders in wheel end bearings for commercial vehicle

We design and manufacture all solutions for heavy vehicle wheel end applications:

Optimum profiles for maximum performance

Patented wheel end kit

Our patented solution with two preset bearings, perfectly aligned and lubricated for life.

Hubs & Compacts

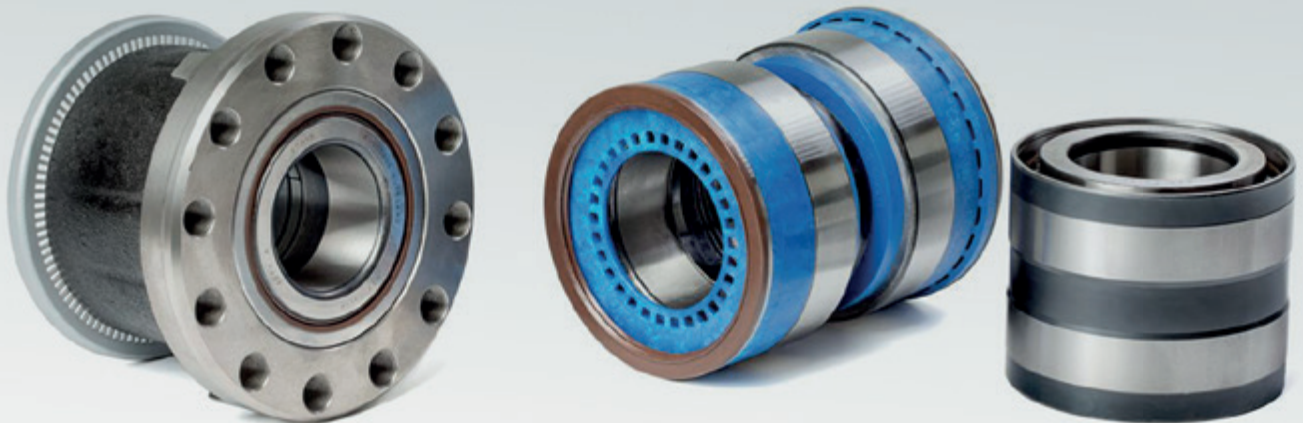

The compact solution is the most widespread for European wheel applications because of its cleanliness and ease of assembly. At Fersa we are suppliers of Hubs for original equipment manufacturers worldwide.

Wheel end hubs assembly, the smart solution

Direct mounting on our state-of-the-art lines ensures excellent fit and longer product life, improving the repair at the workshop.

Maintenance kits, Components and Tools

We complete the range with maintenance and repair kits, which include everything necessary for optimal maintenance. We also have our own tools for a correct and safe assembly.

Wheel End Hub

A close-up photograph of a Renishaw probe, a precision measurement tool, positioned vertically. The probe's tip is in contact with the inner surface of a large, cylindrical metal component, which is a wheel end bearing. The bearing has a polished, reflective surface. The probe's handle is black and features a circular logo with the word 'RENISHAW' and a directional pad. A small label on the probe's shaft reads 'FORCE 1000' and 'RE'. The background is a soft, out-of-focus industrial setting.

GREASE

High-performance grease designed for specific applications

Fersa grease is designed for outstanding performance in even the most demanding of situations.

Our wide variety of greases cover all your needs, from generic applications to specific greases designed for wheels of heavy vehicles.

Fersa Grease Advantages

- Resistant to temperatures of up to 160 °C.
- Improved composition to ensure excellent lubrication.
- Strong adherence due to the plastic deformation of micro additives.
- Rust-proof and resistant to vibration.

	HI-TEMP PRO 3	SPECIAL WHEEL END	MULTIPURPOSE 2	MULTIPURPOSE 3
	Resistant to high temperatures, especially formulated for automotive applications	Especially formulated for industrial vehicle wheel applications	Lithium grease designed for general applications. It protects against the development of fretting corrosion and premature wear of the bearing	
Available formats	0.5 kg / 1 kg	0.5 kg / 1 kg	0.5 kg / 1 kg	0.5 kg / 1 kg
